

High-speed 802.11N Wireless Range Extender

Model: **WS-WN518N2**

Name: high-speed 802.11N Wireless Range Extender

The WS-WN518N2 Wireless Range Extender also features 128-bit WEP encryption and Wi-Fi Protected Access (WPA), and 802.1x user authentication to enhance the levels of data protection on your existing network. With the provided level of security, unauthorized individuals will not be able to access your network unless granted permission

Feature:

WS-WN518N2 is a high-speed 802.11N Wireless Range Extender capable of operating in two modes: Wireless Access Point or Wireless Repeater. In either operation mode, the WS-WN518N2 Wireless Range Extender offers the convenience of eliminating cable wires while providing the same reliable connection throughout your network. When used as an access point, the WS-WN518N2 is backwards compatible with all 802.11b devices. When used as a repeater, the same strong signal bandwidth of 802.11g devices is repeated increasing the range of wireless coverage.

Specification:

1. Support the various WIFI shared the longer range
2. 2dBi ceramic chip Antennas
3. Complies with IEEE 802.11n, IEEE 802.11g, IEEE 802.11b standards
4. Supports Repeater, AP mode
5. Provides one 10/100Mbps Auto-Negotiation Ethernet LAN ports
6. Supports SSID broadcast control and MAC access control list
7. Built-in firewall features IP, MAC, URL filtering which flexibly controls online access and time
8. WMM and WMM-APSD Supported
9. WDS supported with WEP, TKIP and AES encryption

It works with following 3G/High Gain/DD-WRT/OPEN-WRT Wifi Routers

Multi-Functional Portable 3G Wifi Router

Model No.: WS-WN516N1
Model No.: WS-WN516N2

Special Hi-Speed Wifi Router with Flexible Antenna

Model No.: WS-WN515N1
Model No.: WS-WN515N2

Hi Speed 300Mbps Wifi Router

Model No.: WS-WN513N1
Model No.: WS-WN513N2

Hi Speed DD-WRT/OPEN-WRT Wifi Router

Model No.: WS-WN5141
Model No.: WS-WN5142
